FOR IMMEDIATE RELEASE — NOVEMBER 16, 2009

Child Development Center accepting enrollment

DYSART SCHOOLS — The Dysart High School Child Development Center announces the acceptance of enrollment for children ages infant to 4 years of age. Space is limited and parents are encouraged to call regarding availability for the center.

The Dysart Child Development Center provides learning opportunities for children in the areas of cognitive, language and social skills. Children are nurtured in a positive learning environment to foster high self-esteem. The center works in conjunction with Dysart High School to provide real-world application to high school students who are enrolled in the Child Development program. Children enrolled in the infant, toddler and preschool classes have positive interaction with high school students under the supervision of an adult. The high school students observe and present age appropriate educational experiences.

Come and join the fun at the Dysart Child Development Center. Space is limited and parents are encouraged to call right away. For more information about registration and space availability, please call the Community Education Office at 623-876-7056 or 623-876-7979.
