**FOR IMMEDIATE RELEASE — AUGUST 1, 2011**

## **Dysart seeking members for communication committee**

DYSART SCHOOLS — As the Dysart School District embarks upon the new school year, a committee is being formed to assist with enhancing district communication. Currently the Dysart school district provides communication to its parents, students and stakeholders through email news releases, social media sites, Dysart's new video news site, school newsletters and school and district websites. Additionally the district provides an email box, [communityrelations@dysart.org](mailto:communityrelations@dysart.org), to receive feedback from the community. This committee's focus will be on improving efforts to distribute and receive information from the Dysart community. Dysart is seeking parents, students and community members to serve on this committee. The committee will meet on August 10, from 5 – 6:30 p.m.

Interested parents, students and community members should e-mail their committee interest as well as contact information to [communityrelations@dysart.org](mailto:communityrelations@dysart.org) by August 4. For more information about the strategic plan action teams, please visit [www.dysart.org](http://www.dysart.org) or call Polly Corsino at 623.876.7195.
