Dysart receives performing arts grant

DYSART SCHOOLS — The Dysart School District has received a second \$100,000 Sundome Foundation Performing Arts grant through the Dysart Education Foundation (DEF). The DEF grant is dedicated to enhancing performing arts programs throughout the district. Schools in the Dysart School District had the opportunity to apply for the grant to support programs that enhance arts education and support community outreach. The grant monies were awarded through the Dysart Education Foundation. Part of the monies awarded through this grant will be used to help establish a performing arts academy to be housed at one of Dysart's K-8 schools that is currently in the development stage. Other monies will support resources for specific activities, such as theater group performances and dance performances.
