# Mountain View teacher wins Walmart Grant

DYSART SCHOOLS — Mountain View 4th Grade Teacher, Danielle Salamanca, has been awarded a Walmart Teacher Grant. The Walmart Foundation and Facility #4218 Local Community Contribution/Hunger Outreach Grant Program awarded Ms. Salamanca \$1,000.00 to purchase iPods for Mountain View School. The iPods will be used to promote mental math facts, word problem skills, reading fluency, decoding words, and give a visual for grammar skills for students learning to read and write. The size of the iPods makes them great for learning centers where students can work together. The video function of the iPods are great for student presentations and the voice memo will be used for recording young readers and having the students reflect on how they sound when reading as well as what they heard.
