Career and Technical Education Program Contact

Dear CTE Student and Parent/Guardian:

We are proud that we are able to offer several quality Career and Technical Education (CTE) classes to the students of the Dysart School District. CTE students get hands-on training using current technology, as well as, leadership and personal growth opportunities through student organizations. This is all made possible through grant funding received from state and federal programs.

As part of our grant requirements, every year we must conduct a follow-up survey with all CTE graduates who have completed two years of a CTE program. The survey can only be completed six months after the CTE student has graduated so it is important that we stay in touch even after graduation. Completed surveys help us maintain vital CTE funding to sustain CTE programs and provide data on how programs are doing.

We are notifying you that in the following weeks your student will be asked to share their cell phone number and email, as well as, sign up for "remind"(a service for us to stay in contact via emails and text messages (standard messaging rates apply)). Attached are the instructions on how to sign up with a graduating class and information about "remind". As a parent/guardian you can help out by signing up for "remind" and/or making sure your school's front office has your most up-to-date contact information. We may need to contact you to complete your student's survey if we are unsuccessful in contacting your graduate.

Thank you for sharing your information so that we can contact you to complete a brief five minute survey after graduation. If you have any questions, please contact Tracey at Tracey.Ongjacobsen@Dysart.org or via phone at 623-876-7987. You can also visit our website at www.dysart.org/CTE.

Sincerely,

Jim Grieshaber

Career and Technical Education Administrator
