

## Third Party Education and Graduation Verification

The Dysart Unified School District has partnered with Parchment for all third party education and graduation verification requests. All such requests must be placed electronically through Parchment. There will be a fee associated with the order.

Please go to [Parchment.com](https://www.parchment.com) to create an account or access the already existing account for your company. Please be sure your submittal includes a consent form signed and dated by the former student which lists the name of your company as the requestor and receiver of the information. The consent must contain language authorizing release of academic/educational information.
