Is Your Child's Development on Track?

For the best and brightest future have your child's development checked often during the first five years!

The Dysart Unified School District offers **FREE** developmental screenings for children aged 2 years 9 months through 5 years who reside in our boundaries! If you are the parent of a preschool child or know of a preschool child with suspected developmental delays, you are eligible for a free Child Find screening. Suspected delays may be evidenced in the areas of: communication, cognition, behavior, physical, auditory, visual and/or sensory development. Free screenings and/or diagnostic evaluations help determine those children who may be eligible for special education services. Screenings are available throughout the school year.

Fact: Children with special needs benefit from early intervention.

Fact: Many of Arizona's preschool children with special needs do not receive services because we don't know who they are.

Contact us for details or to schedule a screening:
dysart.org/ChildFind or call 623-876-7022

For additional information about child find for children younger than 2 years 9 months, please contact the Arizona Early Intervention Program (AzEIP)
