-
- Concerns discussed:
 - Back field condition. The field is in need of some re-seeding. There are a lot of thorns/stickers that the students get when out on the field for practice, recess, PE, etc. What can be done to upgrade the field?
 - Michele will turn in a work order to see if ABM can do something to repair the condition of the field.
 - Muddy area between the backstop and the gate to the cul de sac behind the school. Area seems to be muddy, a possible leak, with standing water there quite often.
 - Michele will turn in a work order to see there is a possible leak to repair the area.
- Next meeting is scheduled for March 2021.
