

# Dysart achiever

DYSART UNIFIED SCHOOL DISTRICT No. 89

FALL 2005

## Schools Start August 8

**NEW SCHOOLS BEGIN AUGUST 22**

The start of the new school year is quickly approaching. Classes begin on August 8 for most schools in the Dysart Unified School District. Our newest campuses, Sunset Hills and Rancho Gabriela elementary schools, will open on August 22.

New students are encouraged to register for school as soon as possible. With more than 3,000 new students expected for the 2005-2006 school year, early registrations help district administrators hire teachers, plan for the use of classroom space and verify bus routes. More information on how to register for school is on page two of this edition of *Dysart Achiever*.

This year, Dysart will open two new elementary schools – Sunset Hills and Rancho Gabriela. In addition, through the support of district taxpayers, new campuses for Surprise Elementary and Dysart High School will open. Renovations also took place on several campuses over the summer to provide additional space for all-day kindergarten and growing student populations. The district continues to meet the challenges of growth by hiring the best educators available, building new schools and renovating existing campuses. This year, we expect more than 18,000 total students.

Over the summer, teachers and administrators have been hard at work preparing for the 2005-2006 school year. Training sessions were held nearly every week. For example, kindergarten teachers attended an academy on implementing the new full-day program, teacher-leaders participated in sessions to develop and explore the Arizona Academic Standards, diversity workshops were presented, and seminars on the district's Continuous Improvement Process were held. It's been a busy summer.

The Dysart Unified School District encourages every student to attend school on the first day, and every day after that. There are only 180 school days in the year – every one of those days is important for academic development. Plus, schools receive funding for the entire school year based on student attendance for the first 100 days. So, for each day a student misses during the first 100, the school loses one percent of funding. That lost class time can add up to academic trouble, and lost funding for schools.

Additional information on the Dysart Unified School District is available from each school, the district office at 623-876-7000, on-line at [www.dysart.org](http://www.dysart.org) or on Cox Cable Channel 99.

# Registration Begins FOR NEW YEAR

## ENTRANCE REQUIREMENT

Arizona law requires that children reaching the age of eight must attend school. A student must remain in school until completion of the tenth grade. While state law does not require kindergarten, the district believes that the child entering first grade without the experience of kindergarten is at a disadvantage when the large majority of his or her classmates have attended kindergarten. This year will be the first for full-day kindergarten programs available for all Dysart students.

## REGISTRATION

When registering any student for the first time, the following documents are required and/or helpful:

- Original copy of birth certificate
- Proof of residence (i.e., water bill, lease or purchase agreement)
- Withdrawal papers from last school attended
- Name and address of last school attended
- If applicable, custody or guardianship papers and/or any other court documents
- School ID number from last school attended (if available)
- Copy of final report card from last school attended (helpful).
- Proof of immunization (shot records). Children who require immunizations can receive them free of charge from the Dysart Unified School District; call 623.876.7944 for details. Required

## ALL-DAY KINDERGARTEN INTRODUCED

Approved by the voters of the Dysart Unified School District in November 2004, full-day classes will be offered for all kindergarten students beginning this year. The introduction of full-day classes for our youngest students makes Dysart a leader in the Valley and demonstrates a commitment to building a strong foundation for students. There is no direct cost to families.

All-day kindergarten will continue Dysart's standards-based program that is developmentally and individually appropriate in addressing four areas of development: Cognitive, Social, Emotional and Physical.

The extra time for the all-day program will allow teachers to deliver curriculum aligned with the Arizona Academic Standards. With more time, teachers will be able to challenge students, provide for differentiated instruction or spend extra time on difficult concepts.

It might sound like a lot, but Dysart teachers and administrators have spent more than a year to create a developmentally appropriate program that is designed to increase achievement for the rest of a student's academic career. With class size ratio of 23:1, kindergarten students will be set on a path of academic success.

What will this extra time be used for? Nap time isn't on the agenda, but there will be a mix of academic, special areas and activities designed to engage students while providing instruction in the Arizona Academic Standards. Within a flexible framework, weekly instruction will include:

Children must be 5 years old to enroll in kindergarten. Students who apply for admission to grades two through twelve on the basis of prior schooling outside of the Dysart Unified School District will be initially placed at the grade level they have reached elsewhere. For more information on registration or entrance age requirements, please contact the District Office at 623.876.7000

student immunizations include: DTAP/DTP (Diphtheria, Tetanus and Pertussis), IPV/OPV (Polio), MMR (Measles, Mumps and Rubella), Hepatitis B, and Varicella (Chicken Pox vaccine or history of disease, a new requirement at some grade levels for the 2005-2006 school year).

- The child's legal guardian is expected to register the child. Parents and guardians are asked to bring photo identification when registering a student.

For information on boundaries for Dysart's 16 schools, visit [www.dysart.org](http://www.dysart.org) or contact the District Office at 623.876.7000. Most schools will open July 19 for new-student registration and questions. High school students should contact their campus to make an enrollment appointment.

## Language and Literacy

Vocabulary, Oral Language Development, Interactive Writing, Guided Reading, Phonics, Read Alouds and Independent Writing/Publishing.

## Mathematics

Calendar, Vocabulary Building, Shared Math, Interactive Math, Guided Math and Centers Aligned to Strands (Number Sense, Geometry, Probability).

## Special Areas

Art, Music and Physical Education. Special area classes will be balanced, developmentally appropriate and standards based.

## Lunch, Snacks and Recess

Students will have lunch with other children in grades kindergarten through three. Kindergarten students use playgrounds specially designed for young students. There will also be time for snacks during the day.

## Exploration Stations

Science Experiments, Social Studies Projects/Activities and other standards-based centers and activities to support instruction.

# Programs AND Services

## SCHOOL FOOD SERVICE PROGRAM

The school food service program is an essential part of the total educational program. Based on the premise that well nourished students are better prepared to receive the instruction of the school day, the Nutrition Services Department plays a vital role in each school's educational team.

Lunch and breakfast are available at all schools. Besides the hot menu choices, salad bars and other food bar choices are available during the week. For information on the other food bar choices, you or your child may contact the school cafeteria.

As part of the National School Lunch and Breakfast programs, the schools can offer meals free or at reduced price. Free and reduced-price meal applications are available in the school office, cafeteria, or the Nutrition Services Department. Only one

application is required per family. Every district family is encouraged to complete and return an application.

For this coming school year, the regular cost of lunch is \$1.50 and a regular breakfast will cost 75 cents daily. Parents are always welcome to dine with their child – please be sure to call in advance and check in at the school office.

On a related note, due to Maricopa County Health Department regulations, no home-made treats or snacks can be shared or sold on campus. Bake sales, classroom parties or other activities involving food must include commercially prepared items.

For questions about Dysart's Food Service program, call 623.876.7075.

## TRANSPORTATION SERVICES

It is the mission of the Dysart Unified School District's Transportation Department to transport students to and from school in a safe, efficient, dependable, professional and courteous manner, while providing the highest quality of support for educational programs by delivering the best possible transportation services.

Bus transportation is not mandated by the legislature, but a privilege offered by the Dysart Unified School District. Transportation service will be offered to: Special Education students

requiring special busing; kindergarten students who live over one-half mile from school; first through eighth grade students who live over one mile from school; and ninth through twelfth grade students who live over one-and-one-half miles from school.

Please contact the district Transportation Department at 623.876.7032 if you have questions regarding eligibility of your student for busing. Information regarding bus routes and times are available in each school office and on-line at [www.dysart.org](http://www.dysart.org).

## SCHOOL SUPPLIES

A general listing of optional supplies for elementary school students is available from each Dysart campus. All supplies which are required, however, will be provided by the Dysart Unified School District. While we may sometimes request community help

for some supplies or special materials, the Arizona Constitution requires that a public education be "as nearly free as possible." If you have questions about supply requests or optional materials, please contact your school principal.

## SPECIAL EDUCATION SERVICES

It is the philosophy of the Special Education Department that all children can learn. All children have the right to a free appropriate public education, regardless of disability, that helps them maximize their potential.

As defined by federal law, special education means specially designed instruction, at no cost to the parents, to meet the unique needs of a child with a disability. Arizona Revised Statutes defines a "child with a disability" as a child who is at least three but less than twenty-two years of age, who has been evaluated and found to have a disability and who, because of the disability, needs special education and related services.

Special education is provided through a continuum of services which include instruction in the general education classroom with supplementary aids and services, services integrated

into the general education classroom, specialized instruction in a resource or pull-out setting, instruction in a specialized classroom, instruction in a special school, home instruction, and instruction in hospitals or institutions.

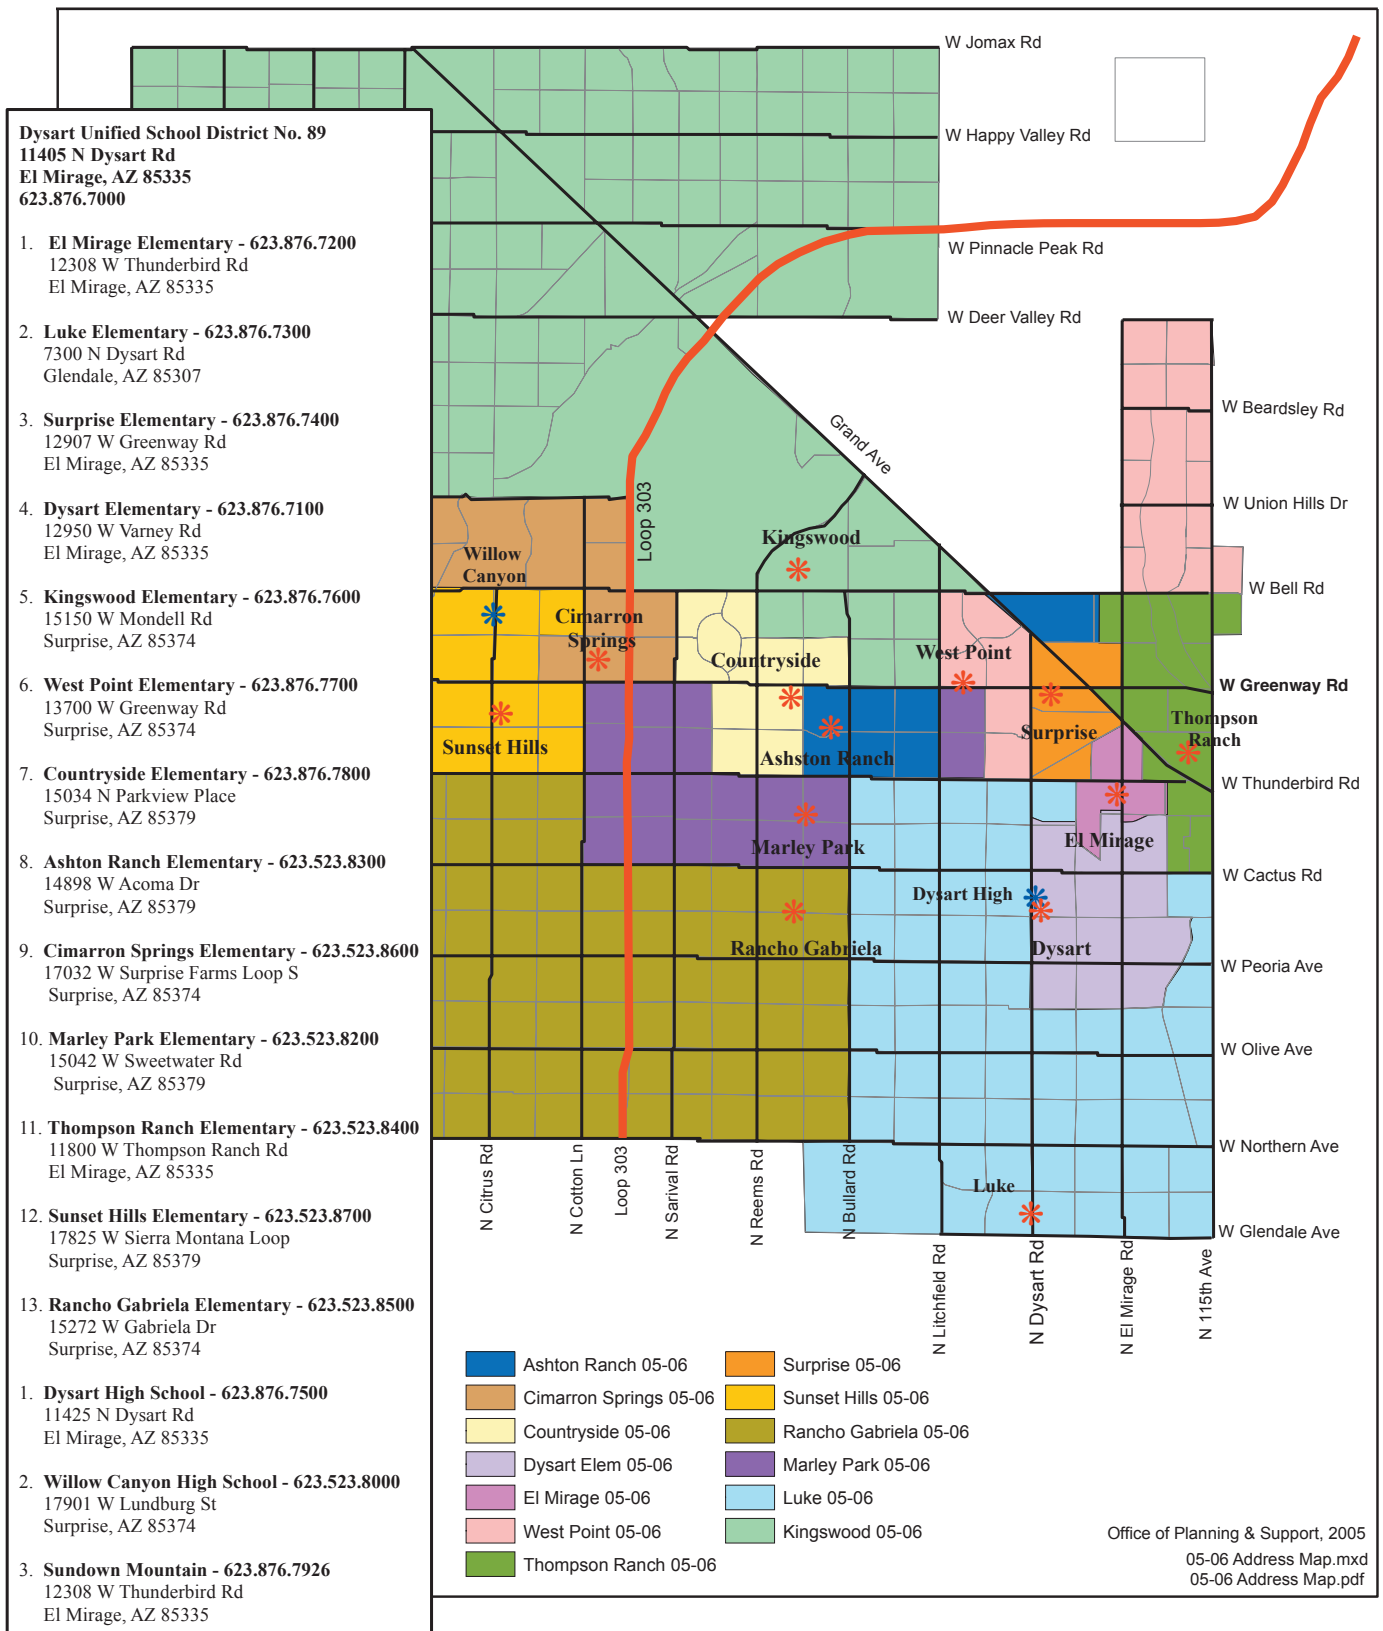

Dysart Unified School District offers free monthly screenings for in-district 2.5 to 5 year old non-kindergarten children with possible special needs or handicaps. The parent needs to be present with the child who is to be screened. Screenings are done at the Dysart Early Childhood Education Center, 11405 North Dysart Road. For more information, or to make a screening appointment, call 623.876.7118 or e-mail [bredburn@dysart.org](mailto:bredburn@dysart.org). To screen a child ages birth to 2.5, call the Arizona Early Intervention Project at 602.532.9960.

## BEFORE AND AFTER SCHOOL PROGRAMS

The Dysart Unified School District offers a variety of programs for students before and after school. Many of these programs are operated through the district's community education department – School Link. In addition, schools offer clubs and

athletics for interested students. Limited after-school transportation services are available. For more information on before or after school programs, contact your campus or School Link at 623.876.7056.

# Dress Code AND Safety

## DRESS WITH CLASS FOR CLASS

The district encourages students to take pride in their attire as it relates to the school setting. Students are to dress in a manner that, in addition to the following guidelines, takes into consideration the educational environment, safety, health and welfare of self and others.

- Shirts and tops may not expose bare midribs, bare shoulders, nor be deeply or narrowly cut in the front, back or under the arms. Halter tops, spaghetti straps and strapless tops are not acceptable.
- Clothing that exposes undergarments will not be tolerated for males or females. Clothing must cover the entire buttocks.
- Bare feet are never acceptable. In the interest of student safety, shoes must be worn at all times. Closed shoes are to be worn for any type of physical activity, such as physical education, cheer practice, weight lifting, etc.
- Jewelry or ornamentation shall not be worn if it presents a safety hazard to self and/or others.
- Hats or other head apparel may not be worn inside school buildings unless for religious, medical or safety purposes.
- Defamatory writing, obscene language or symbols, or symbols of drugs, sex or alcohol on clothing or jewelry are expressly prohibited.
- Tattoos displaying defamatory writing, obscene language or symbols, or symbols of drugs, sex, or alcohol must be covered.
- Gang-related attire is prohibited.
- Exceptions for special activities or health considerations may be approved by the administrator. Students who participate or

## DISTRICT PROVIDES SAFE SCHOOLS PLAN

Schools in the Dysart Unified School District conduct quarterly lock-down drills to prepare students and staff members for various emergency situations. Like fire drills, the goal is to make lock-down drills routine exercises which support safe, secure learning environments.

During a lock-down:

- Instruction will stop
- Windows will be covered and all doors locked
- Lights will be turned off
- Students will sit on the floor, away from doors and windows
- A quiet, calm environment will be maintained

A lock-down can be called for a variety of critical situations, from suspicious people to chemical spills. In many cases, events in the neighborhood will cause a campus to lock-down. If you are on campus during a lock-down – whether a drill or actual emergency – please follow the instructions of the staff members and expect to be secured on campus for the duration of the lock-down.

When the news breaks that an emergency is taking place at a school, every parent's first reaction is to rush to the campus to pick up his or her child. In fact, a horde of parents arriving at school can

volunteer in extracurricular activities, such as athletics, band, chorus, etc., are subject to the standards of dress as defined by the sponsors of such activities.

All elementary students in the Dysart Unified School District are expected to dress in proper school attire. It is the responsibility of parents to ensure compliance with the dress code. Students are expected to arrive at school clean and neatly dressed. Extremes of clothing, hairstyles and make-up are not appropriate to the school environment.

All K-8 students must dress in accordance with the following dress code:

### Boys

A short sleeve polo, oxford or turtleneck shirt without logos. Students may wear shirts in any of the following colors: navy blue, white, burgundy, deep purple, hunter green, light/powder blue and ash gray. Solid navy blue or khaki polyester/cotton twill slacks or shorts. Baggy or oversized pants, shorts or shirts, as well as cargo pants and shorts, are unacceptable.

### Girls

A short sleeve polo shirt, blouse or turtleneck without logos. Students may wear shirts in any of the following colors: navy blue, white, burgundy, deep purple, hunter green, light blue/powder blue and ash gray. Solid navy blue or khaki polyester/cotton twill slack, shorts, skirts, capris, skirts or jumpers. Baggy or oversized pants, shorts and shirts, as well as cargo pants, shorts or skirts, are unacceptable.

increase the risk to students. Here are some tips for parents when an emergency occurs on or near a Dysart campus:

- During most critical situations, schools will not answer their telephones. Parents can call the Dysart District Office at 623.876.7000 for information on a campus' status and basic information during an emergency.
- For critical events requiring an evacuation, local media will be asked to help inform parents of the location for parent-child reunification. During a large-scale emergency, tune to KTAR-AM 620 for the latest information.
- Become familiar with the district's emergency operations plans. School staff welcome your question regarding our emergency preparations.
- Ensure that your student's Emergency Card is up-to-date and contains accurate primary and secondary contact numbers.
- To make a confidential report related to campus safety, bullying or other criminal actions, students and community members can leave a message 24/7 at 623.876.7009. Communication is key in ensuring safe schools. This Safe Schools Hotline is just another way to pass along tips or information.

## STUDENT RIGHTS AND RESPONSIBILITIES

This year, the Dysart Unified School District will introduce a new *Student Rights and Responsibilities Handbook* to outline conduct expectations and consequences for students. At the same time, this new handbook will outline federal privacy, due process, special education, use of technology and other issues for parents and students.

The most significant feature of this new handbook is a revised discipline matrix. This chart of consequences, along with definitions, will help to ensure that all conduct infractions are addressed consistently across the district. Educators will spend time at the beginning of the school year to explain these new, higher conduct expectations to students. Of note, students in grades seven and eight will now be held to the same conduct expectations as high school students. And for many infractions, there are more serious consequences – especially for bullying, weapons, drugs and school bus misconduct.

While the district follows a progressive discipline philosophy, serious infractions can result in more serious consequences. Likewise, some incidents may include multiple infractions and additional consequences.

The handbook also establishes the responsibilities of all students:

- Attend school to receive an education.

- Be on time for all classes.
- Come to class with necessary materials.
- Complete all in-class and homework assignments and meet all deadlines.
- Obey school rules and school personnel.
- Cooperate with school staff.
- Respect the person and property of others.
- Respect public property.
- See that school correspondence to parents reaches home.

The *Student Rights and Responsibilities Handbook* – developed in partnership with school administrators, teachers and parents – will be distributed to each student. Parents and students will need to sign and return the included verification form within 10 days.

Along with the strengthened discipline expectations, the district has established a Safe Schools Hotline for students, parents and community members to make reports of harassment, bullying or other dangerous activities. The hotline is not a substitute for 9-1-1 but does provide a means 24/7 to report issues which could impact school safety. The Safe Schools Hotline number is 623.876.7009.

# Construction Costs Impact New Schools

Increasing construction costs are forcing the Dysart Unified School District to seek alternative sources of facility funding beyond the Arizona School Facilities Board, the agency primarily responsible for allocating funds for new school construction.

High school construction costs have increased by more than \$7 million from 2002 when Willow Canyon High School was built. As the district prepares to begin construction this summer on High School 3, located at Parkview Place and Greenway Road in Surprise, today's fiscal resources from the Arizona School Facilities Board are insufficient to build a facility equal to the two-year-old Willow Canyon High School campus. Construction costs have jumped from \$110 per square foot to \$150 per square foot; state funding provides \$120 per square foot. Project-to-project, costs increased nearly 53 percent.

As a result, \$3.3 million in auxiliary elements to High School 3 will not be immediately constructed. These facilities include some parking lots, gymnasium features, some athletic fields and field lighting, additional tennis courts, and an all-weather track. The district is seeking community partnerships with the City of Surprise and others to gain support for these facilities. In addition, current funding does not provide for a performing arts center – an addition that may require voter-approved funding to construct. None of the changes impact critical instructional areas.

## Take Dysart's Tech Survey

The Dysart Unified School District is interested in your access to technology, and your views on how technology should be used in schools. The survey is available in both English and Spanish and can be accessed on-line at <http://www.dysart.org/survey/>. Paper copies of the survey are also available at every Dysart school.

Results of this technology survey will be used to revise the Dysart Unified School District's Technology Plan. For more information, contact the Information Technology Department at 623.876.7071.

New elementary schools are being impacted by the increasing costs too. Dysart's new K-8 campuses being completed this summer required changes from schools built in 2004 to remain within budget. Elementary schools had a reduction in the number of outside canopies, elimination of an exterior bathroom, elimination of concrete columns and planters, reduction in the amount of landscaping, elimination of playground shade structures, elimination of some paved parking, and a downgrade of the gym floor. In addition to SFB funds for these facilities, the Dysart Unified School District supplements as much as \$250,000 in local funds for new elementary schools.

The total cost for the 241,616 square-foot High School 3 is budgeted at \$33.8 million, including funding from the Arizona School Facilities Board, voter-approved bond proceeds and other local funding sources. The campus is expected to open in August 2006 for students in grades 9 and 10. As a result of reallocating bond funding approved as part of the 2002 election, relocation and reconstruction of Luke Elementary School – now the district's oldest campus – will be delayed. However, the district remains committed to replacing the campus.

## School Starts August 8
